Education

Bowdoin College

Sep. 2022 – May 2026

B.A. in Math & Computer Science. GPA: 3.8/4

Brunswick, Maine

- **Relevant Coursework:** Machine Learning, Data Structures, Algorithms, NLP for AI, Bayesian Statistics, Advanced Statistics, Probability, Software Design, Financial Machine Learning, Microeconomic Theory, Advanced Data Science
- **Awards:** Faculty Scholar, National Merit Scholar

Technical Experience

Senior Honors Thesis

August 2025 – Present

Independent Machine Learning Researcher

Brunswick, Maine

- Conducting theoretical research on LLM interpretability and calibration using SoundCloud proprietary data under the supervision of the Chair of the Bowdoin Mathematics Department (see [here](#))
- Applying theoretical insights to design a scalable AI music recommendation system that serves 50M+ users

SoundCloud

June 2025 – August 2025

Data Analyst Intern

New York, New York

- Scoped, designed, and executed a large-scale analysis of anonymous user behaviors on the platform, resulting in \$500K+ in projected annual royalty cost savings
- Unified and analyzed 1 Trillion+ previously siloed data points using SQL and Python, applying statistical methods, XGBoost, and SHAP values to identify anomalies and drivers of user engagement
- Delivered findings through an analytical report and presentation to a nontechnical audience, translating data insights into actionable product and business recommendations

Recidiviz

June 2024 – August 2024

Data Analyst Intern

New York, New York

- Performed exploratory analytical research using Python (Pandas, NumPy, Matplotlib) and SQL to extract novel insights from over 1 million complex government raw data points that helped drive U.S. state criminal justice policy decisions
- Designed end-to-end data pipelines using SQL and Python for newly ingested government data, conducting rigorous data validation through cross-referencing techniques
- Created polished analytical deliverables with data visualizations to support decision-making for government clients

Tenna LLC

June 2023 – August 2023

Product Intern

New Brunswick, New Jersey

- Investigated undocumented product functionality through JavaScript code review, edge case testing, and cross-team collaboration to create 500+ reproducible product requirements for the engineering team

Leadership & Volunteering

Club Basketball

December 2023 – Present

Cofounder & Captain

Bowdoin College

- Led year-long negotiations with administration to obtain official team charter; cultivated an inclusive team culture
- Built leadership structure, team norms, and administrative relationships to ensure the club continues after my graduation

Common Good Grant Committee

September 2023 – June 2024

Committee Member

Bowdoin College

- Evaluated grant proposals through site visits and weekly meetings with nonprofit leaders to allocate \$30,000+ in funding
- Contributed to raising over \$20,000 in funds for Midcoast Maine nonprofits through grant applications

Big Brother Big Sister

March 2023 – Present

Volunteer

Bowdoin College

- Provided weekly mentorship to an elementary student, fostering respectful communication between peers and teachers

Technical Skills & Interests

- **Technical Skills / Tools:** Python, Java, BigQuery, Cursor, PostgreSQL, Looker, Tableau, R, Git, Azure, PyTorch, TensorFlow, Deep RL, NLP, Time Series Analysis, Pandas, NumPy, GCP, Excel
- **Interests:** Criminal Justice, Public Health, Soccer, AI Safety, Public Policy, Economic Development, Cooking
- **Certificates:** [Machine Learning \(Stanford\)](#), [Google Data Analytics](#), [NoSQL Essential Training](#), [Azure OpenAI](#)
